Surrey bike

Surrey bike is a luxury touring bike that pedals like a bike and steers like a car. Designed for adults and children, Surrey bike provides families and other sightseers with the ability to leisurely enjoy any park, boulevard, beach or lake front.

Features

Why smaller front wheels and front track width?

The two smaller wheels at the front have a much better steering radius which means it's easier to turn corners. The smaller front track width is also designed for easy steering.

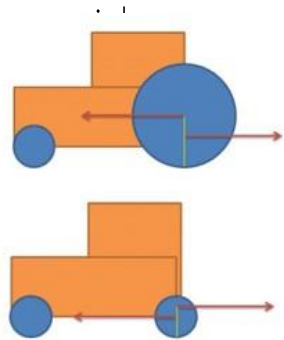

Features

Why large rear wheels?

1). The large rear wheels of the bike fix the driver's seat at a higher elevation which ensures good visibility of the nose of the bike and the corners of the ground.

2). The large rear wheels has a larger contact patch, that gives better grip and stability.

3). The large rear wheels make the driving axle high

Features

Comfortable bench seat

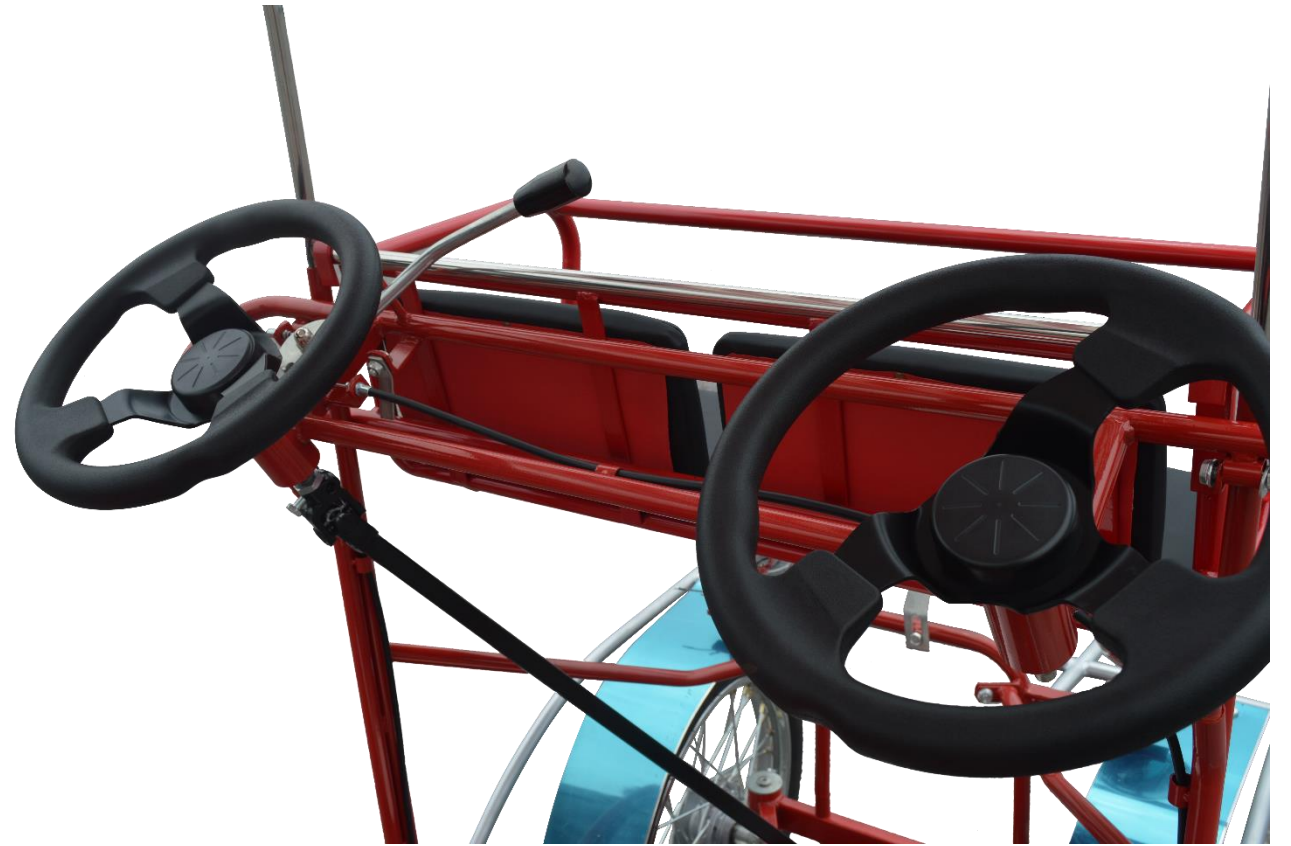

Open bench seat with comfortable foam cushions give your tailbone and the back the desired support. Meanwhile, the comfort level helps the tailbone to remain in a better health longer when exercising.

Features

Steering feels like a car

The surrey bikes are equipped with steering system like car's, which offer excellent and simple controllability.

Features

Reinforced steel frame

Our surrey bikes offer 2 mm thickness tube for 2 person bike and 4 mm for 4 person bike.

The reinforced steel frame with proper thickness perfectly assure its high capacity and durability.

Features

Rock solid powder coat

The powder coating process involves three basic steps: 1.the pre-treatment, 2. the powder application 3. Curing with gold oil.

This craft optimizes the bike's antirust wear resistance and anticorrosion, so the bike can be used in different weather, and eye-catching powder coat paint job and excellent dura

Features

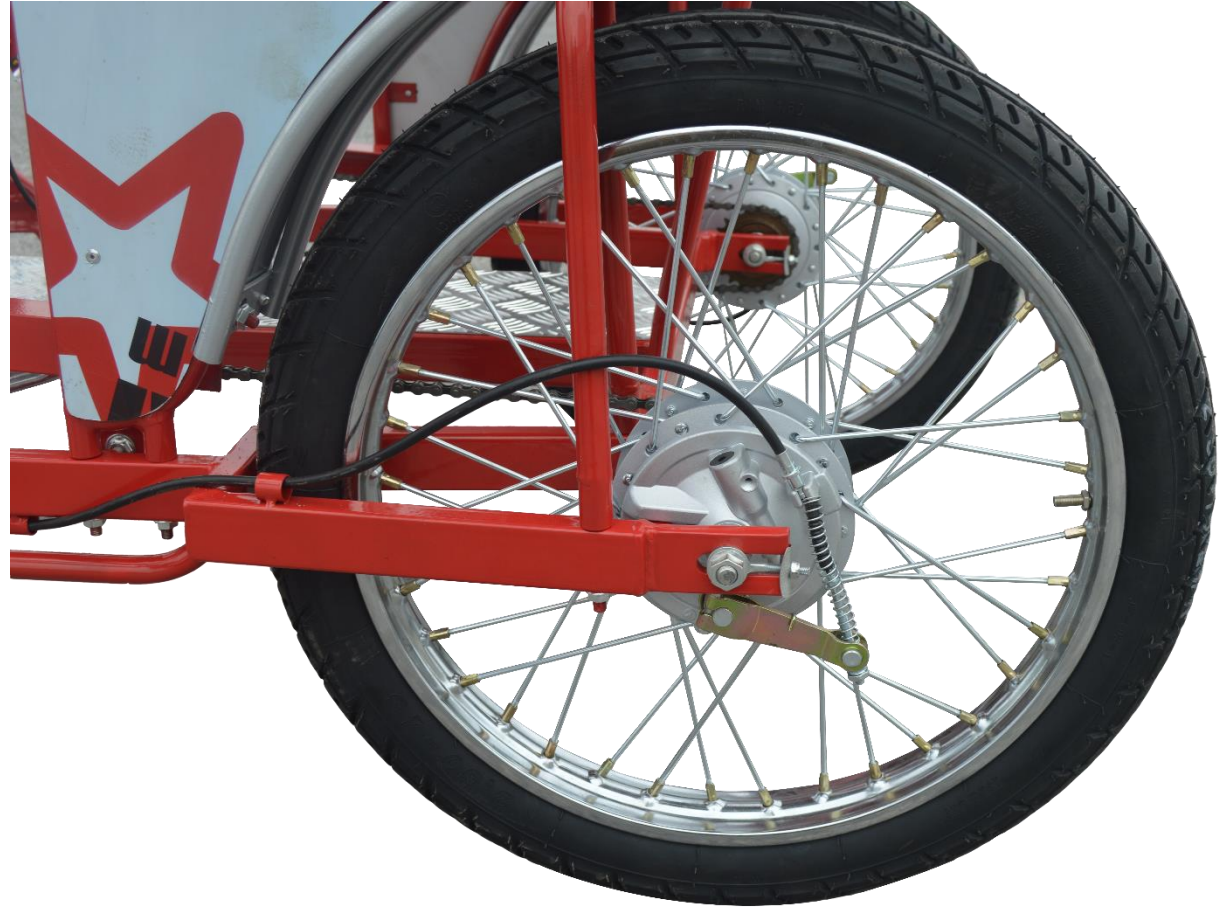

Motorcycle tires and rims

Overload capacity wearable motorcycle tires and solid rims give the bikes more durability, and wide size motorcycle tires has strong adhesion and make pedaling more stable and comfortable.

Features

Effective brakes

Dual drum brakes provide better stopping performance. Meanwhile, they are much easier to replace if necessary.

Features

Stainless steel parts

With the stainless steel parts (fenders, bumpers, uprights, brake lever), the bikes look like more luxury. What's more, they extend the bike service life.

Features

Optional Electric Assist

With electric assist on the surrey bikes, hills can be flattened easily. Long journeys become a breeze! The display keeps track of your battery level, distance travelled and speed.

Our standard electric assist bike is with powerful 60v 1500watt motor and 60v 32ah lead acid battery. The

Specification

2 Person Surrey Bike (MS-2)			
Technical Data		Components	
Overall width	105 cm	Frame	Reinforced steel
Overall height	185 cm	Paint	Powder coat
Overall length	180 cm	Tire	Motorcycle tire, 2.25-16 front/2.5-18 rear
	59.5 cm front/78.5 cm rear	Rim	Motorcycle steel rim
Track width	130 cm	Brake	Dual rear drum brakes
Wheel base	28 cm	Seat	Faux leather
Ground clearance	78.5 cm	Steering wheel	Dual steering wheels (right side inoperable)
Seat height	104.5 cm	Floorboard	Aluminum alloy
Seat width	34.5 cm	Pedal	Aluminum alloy
Seat depth	3.1 m	Headlamp	Dual Headlamps
Turning circle	98 kg	Awning	Waterproof canvas
Net weight	122 kg	Stainless steel features	Fenders, bumpers, uprights, brake lever
Gross weight	184 x 102 x 62 cm	Option (MS-2E)	
Carton size	17" front/19" rear	Motor	60v 1500w rear hub motor
Wheel size	250 kg	Battery	60v 32Ah lead acid battery
Max. load		Display	LCD display
		Pedal assist	Cadence sensor

Specification

4 Person Surrey Bike (MS-4)			
Technical Data		Components	
Overall width	105 cm	Frame	Reinforced steel
Overall height	190 cm	Paint	Powder coat
Overall length	260 cm	Tire	Motorcycle tire, 2.25-16 front/2.5-18 rear
Track width	59.5 cm front/78.5 cm rear	Rim	Motorcycle steel rim
Wheel base	203.5 cm	Brake	Dual rear drum brakes
Ground clearance	28 cm	Seat	Faux leather
Seat height	78.5 cm	Steering wheel	Dual steering wheels (right side inoperable)
Seat width	104.5 cm	Floorboard	Aluminum alloy
Seat depth	34.5 cm	Pedal	Aluminum alloy
Turning circle	3.1 m	Headlamp	Dual Headlamps
Net weight	128 kg	Awning	Waterproof canvas
Gross weight	157 kg	Stainless steel features	Fenders, bumpers, uprights, brake lever
Carton size	264 x 102 x 62cm	Option (MS-4E)	
Wheel size	17" front/19" rear	Motor	60v 1500w rear hub motor
Max. load	450 kg	Battery	60v 32Ah lead acid battery
		Display	LCD display
		Pedal assist	Cadence sensor

Specification

6 Person Surrey Bike (MS-6)			
Technical Data		Components	
Overall width	105 cm	Frame	Reinforced steel
Overall height	190 cm	Paint	Powder coat
Overall length	355 cm	Tire	Motorcycle tire, 2.25-16 front/2.5-18 rear
Track width	59.5 cm front/78.5 cm rear	Rim	Motorcycle steel rim
